PERSONAL STATEMENT

Second-year Computer Science student at Teesside University with hands-on experience in collaborative software development, databases, and networking. I have contributed to team-based university projects, developing full-stack applications using .NET, SQL, and C#. Adept at learning new technologies quickly, I'm passionate about solving real-world problems through innovative and efficient software solutions.

EXPERIENCE

Collaborative University Projects | Sep 2023 – Present

Teesside University, UK

- • Contributed to team-based development of a text-based MUD game with C#, MongoDB, and SQL.
- • Practiced networking fundamentals using Cisco tools and engaged in risk assessments and documentation.
- • Applied agile teamwork to overcome development and debugging challenges.

Digital Champion Volunteer | Feb 2024 – Present

Beyond Housing, UK

- • Provided digital support to vulnerable individuals and improved digital literacy.
- • Helped users become comfortable with accessing online services and resolving basic tech issues.

EDUCATION

BEng (Hons) Computer Science | Sep 2022 – Present

Teesside University, Middlesbrough, UK

- • Learning advanced topics in programming, software engineering, and databases.
- • Completed modules in Data Structures, Web Development, Software Architecture, and Cybersecurity.

TECHNICAL SKILLS

Programming: C#, Java, Python, SQL
Web: HTML, CSS, JavaScript
Database: SQL Server, MongoDB
Tools: Visual Studio, Git, Cisco Packet Tracer, Postman
Concepts: Agile, Networking Basics, OOP, Risk Assessment

PROJECTS

Text-Based MUD Game

- • Built a multi-user dungeon game using C# and .NET with database support via SQL and MongoDB.
- • Collaborated using GitHub and Visual Studio Code in an agile development environment.
